

The Perfect Business Plan!

After getting an MBA and Doctorate, I humbly found the best Business Plan in Ezra 6 (Bible) that I now follow daily ...

God still utilizes all of my years of studies but Ezra 6 gives me a solid model that I can follow and on which I can stand securely with any business initiative.

1. Whatever I build must align with my purpose in God and bring glory to His name.
2. The foundation must be solid so this cannot be rushed - it must be cemented well to carry its growth. I seek Him each step of the way.
3. The Royal Treasury is my storehouse. This means that God supports His projects. He knows business and how to keep us in the black if we just seek Him and listen.
4. If my business does not glorify Him, it will not make it. Plain and simple. We cannot use God's resources for our glorification or for that which does not showcase Him.

I saw this plan work in real life so many times. One time was my call to reach into a developing country. I had \$200 when I entered. Over half million USA dollars was provided in many ways including scholarships to help me do God's work there. I watched His Hand move flawlessly. Another was starting a business with \$250. Today 26 years later it is still blessing. These are only two examples.

Many times, I smiled at the fact that the funds were there and it had nothing to do with the amount in my bank account. This is because it is His riches that I am just asked to steward well for Him.

Dear ones it is truly not about us. We are back to Revelation 4:11: 'It is for His pleasure that we are created'. Enjoy the perfect Business Plan. As a dear friend says ... He knows His Business. Yes, He does! :)

Love, D
